Why **choose us**

With our decades of experience across a broad spectrum of industries with systems and flow services, our team provides expert services throughout Texas and the southwest providing equipment sales to meet a variety of needs.

Golden Rule

At Tejas Pump & Equipment we believe in and follow The Golden Rule – **“Treat Others as we want them to treat Us.”**

Industries

Food & Beverages

We provide specialized pumping solutions using top brands. Ensuring safe and efficient liquid transfer. Our systems meet strict hygiene standards to maintain product integrity while enhancing productivity.

Chemical & Petro-Chem

Tejas delivers reliable pumping systems from leading manufacturers. We optimize chemical processes with our expertise in troubleshooting and system consulting, ensuring compliance and efficiency

Oil & Gas

In the oil and gas sector, we utilize advanced equipment to enhance extraction and processing. Our emergency delivery services ensure you stay operational with minimal downtime.

Heavy Industries

Our pumps are designed for heavy-duty applications like wastewater treatment and power generation. We ensure reliable performance in demanding environments.

General Industries

We offer versatile pumping solutions for manufacturing and aggregates, providing durable and efficient products for various applications.
